

SKID STEER STANDARD UTILITY PALLET FORKS

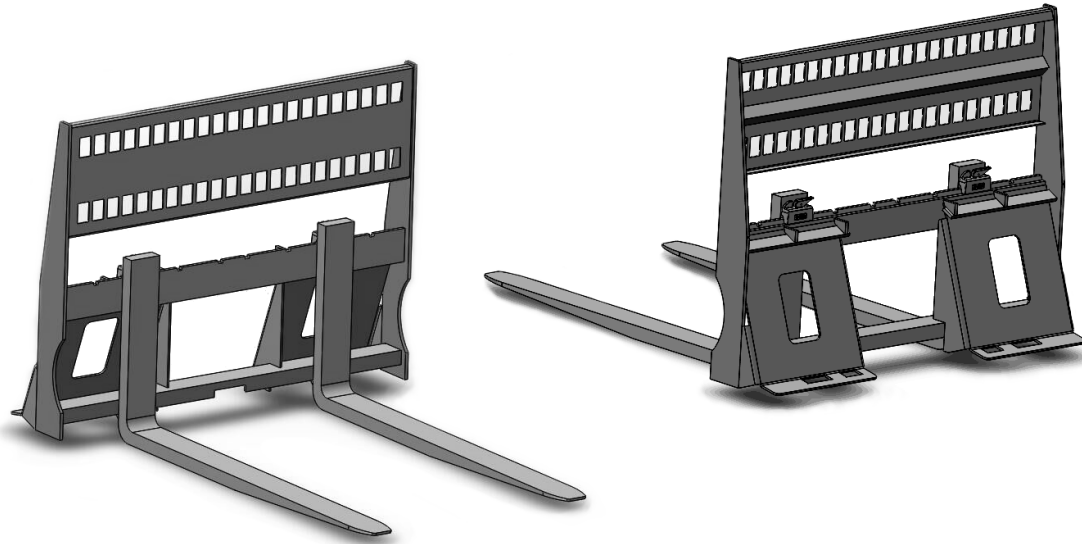

HEAVY DUTY PALLET FORK FRAME DESIGN OFFERS INCREASED STRENGTH OVER STANDARD BACK FRAMES WHILE STILL ALLOWING MAXIMUM VISIBILITY

- Reinforced larger brick guard is a standard feature for added stability while handling materials
- Forks manufactured from high tensile ASTM 5140 steel with a minimum safety factor of 3:1
- ISO class II rail mounting style
- Additional cutouts in vital areas where high visibility is needed
- Easily adjustable 42 inch forged steel forks with slip style release pins, adjustable from 8 inches to 47 inches
- Quick attach mounting plate
