

## SKID STEER UTILITY BRUSH MOWER

HIGH PERFORMANCE BRUSH MOWER FOR LIGHT TO MEDIUM DUTY CUTTING, DESIGNED TO EXCEL IN GENERAL EVERYDAY MOWER APPLICATIONS

- Gearbox and built-in pressure relief protect motor from damaging loads and shock forces
- Motor guard protects vital componentry from any falling debris during operation
- Front guard helps to protect crucial components while pushing and knocking down brush and saplings
- Heavy skid plates allow mower to glide over rough and uneven terrain
- Heavy duty above deck reinforcement for added strength
- Cuts up to 1-1/2 inch diameter trees, thick brush, and tall thick grass
- Operates in both forward and reverse
- Two high tensile steel blades connected to 180 pound flywheel allow for effortless cutting
