

SKID STEER BRUSH, LOG, ROCK, RAKE GRAPPLE

DESIGNED FOR THE MOST VIGOROUS CONDITIONS, THIS RAKE GRAPPLE IS OVERBUILT TO ENSURE MAXIMUM MATERIAL HANDLING CAPABILITIES WHILE PROVIDING INDUSTRY LEADING DURABILITY AND RIGIDITY

- Two powerful hydraulic cylinders powering the large spaced tine grapple able to grab and pinch materials with optimal grip
- Eight industrial grade forged wear teeth attached to the edge of the bottom tines allowing the rake to glide over rugged ground surfaces without damaging the tines
- Bucket-like reinforcements between tines for industry leading rake grapple durability, and ensuring a long working life
- Grapple comes standard with greaseable and plated pins for extended pivot point wear life
- Constructed from ultra-durable 1/2 inch thick 50W steel
- Quick attach mounting plate

SKID STEER BRUSH, LOG, ROCK, RAKE GRAPPLE

SKID STEER BRUSH, LOG, ROCK, RAKE GRAPPLE	
Model	72 Inch Brush, Log, Rock, Rake Grapple
Part Number	1513439
Length	41.30 inches
Width	72.00 inches
Height	47.20 inches
Tine Thickness	0.50 inches
Upper Tine Spacing (Average)	7.75 inches
Lower Tine Spacing (Average)	10.00 inches
Open Distance	46.00 inches
Weight	1150.00 pounds
Capacity	4000.00 pounds

OPTIONAL FEATURES	
Model	72 Inch Brush, Log, Rock, Rake Grapple
Replaceable Pin-on Forged Tooth (Point)	✓
