

SKID STEER HYDRAULIC PLATE COMPACTOR

UTILIZING A POWERFULL VIBRATORY MOTOR TO PROVIDE EXCELLENT COMPACTION IMPULSE FORCE PAIRED WITH A HEAVY DUTY COMPACTION PLATE

- Heavy duty 1 inch thick compaction plate gives roughly 5 square feet of area coverage
- Heavy duty solid rubber insulators with a long service life ensure forces are transferred to the ground directly and not the skid steer
- Vital components lubricated by gear oil for longer wear life
- Reduces the need for additional compaction equipment by quickly mounting to skid steers, and allowing for maximum compaction time on the work site
- Quick attach mounting plate

SKID STEER HYDRAULIC PLATE COMPACTOR

SKID STEER HYDRAULIC PLATE COMPACTOR	
Model	Hydraulic Plate Compactor
Part Number	1513446
Length	39.40 inches
Width	47.25 inches
Height	27.50 inches
Weight	900.00 pounds
Maximum Operating Pressure	3000.00 PSI
Maximum Flow Rate	29.00 GPM
Impulse Force	8800.00 pounds
Vibration Frequency	2000.00 RPM
Base Plate Width	21.65 inches
Base Plate Length	35.43 inches
